

BLEEDING CONTROL AND SHOCK MANAGEMENT SKILL SHEET

(TABLE I)

(References: STP 8-91W15-SM-TG Tasks, 081-831-0047, Initiate Treatment for Hypovolemic Shock;
081-833-0161, Control Bleeding)

SOLDIER:		SSN:		DATE:	
PRIVACY ACT STATEMENT					
<p>AUTHORITY: 10 U.S.C. §3013</p> <p>PRINCIPAL PURPOSE: To insure that test results are properly credited to the correct medic.</p> <p>ROUTINE USE: This information will be used to monitor sustainment training IAW AR 350-41, AR 220-1, and MEDCOM 350-4.</p> <p>DISCLOSURE: Mandatory. Failure to provide the requested information may result in a loss of credit for taking the test and a repeat of the test to make up that credit.</p>					
<p>CONDITION: Given a CMVS or ALICE, standard medical packing list, IV administration equipment with fluids, immobilization equipment, splints, oxygen, suction equipment, and 91W skill sheets. You encounter a casualty with a bleeding injury exhibiting signs and symptoms of hypoperfusion.</p>					
<p>STANDARDS: The medic must control the casualty bleeding, identify the signs and symptoms of hypoperfusion then attempt to prevent shock without causing further injury to the casualty. NOTE: Per TC 8-800, the evaluated soldier must score at least 70% (10 points) and not miss any critical (*) criteria on skill sheet.</p>					
Critical		PERFORMANCE STEPS		Points possible	Points awarded
*	<input type="radio"/>	Takes (verbalizes) Body Substance Isolation precautions	BSI for Medic and partner	1	
	<input type="radio"/>	Uncovers wound (unless clothing stuck to wound or a chemical environment exists)		1	
	<input type="radio"/>	Applies field dressing		1	
	<input type="radio"/>	Applies direct pressure to wound		1	
	<input type="radio"/>	Elevates the extremity		1	
NOTE: The evaluator must now inform the Medic that the wound continues to bleed					
*	<input type="radio"/>	Applies additional dressing (pressure dressing) to the wound		1	
NOTE: The evaluator must now inform the Medic that the wound still continues to bleed					
	<input type="radio"/>	Locates and applies pressure to appropriate arterial pressure point		1	
NOTE: The evaluator must now inform the Medic that the bleeding is now controlled					
	<input type="radio"/>	Bandages the wound		1	
*	<input type="radio"/>	Did not apply a tourniquet before attempting other methods of bleeding control		1	
NOTE: The evaluator must now inform the Medic the casualty is now showing signs and symptoms indicative of hypoperfusion					
	<input type="radio"/>	Properly positions the casualty		1	
*	<input type="radio"/>	Applies high concentration oxygen		1	
	<input type="radio"/>	Initiates steps to prevent heat loss from the casualty		1	
*	<input type="radio"/>	Indicates the need for immediate transportation		1	
*	<input type="radio"/>	Controlled hemorrhage in a timely manner		1	
Total				14	
Start time:		Stop time:		DEMONSTRATED PROFICIENCY	
				YES	NO
<p>EVALUATOR GUIDELINES: Disregard gray row(s) when used with an assessment skill sheet. Use the checkbox column (2^d column) to check all performed steps. After completion of the skill, award the soldier the indicated points for that step and total all awarded points at the bottom of the column. Indicate (circle) if soldier demonstrated proficiency.</p>
